The Conservation Pledge

I pledge to protect and preserve the natural resources of the planet Earth, and promise to promote education so we may become caretakers of our air, water, land, forest, and wildlife.

Shaky Fukushima

Last Friday, on July 11, 2014, a 6.8 magnitude earthquake and small tsunami affected *Fukushima, JAPAN*. There seems to be a news black-out about whether or not the fourth nuclear reactor melted.

Living, Loving, and Thriving in Earthquake Country

Big Bear and *Mt. Shasta, CALIFORNIA* have had some jitters, and *Bandon* and *Three Sisters, OREGON*, had recent quivers, shifting the tectonic plates in the direction of *Yellowstone*.

Hell's Heating Up

July 15, 2014, brought closure of *Yellowstone National Park*, in *WYOMING*, is because roads literally melted away due to extreme thermal activity of the *Supervolcano* underneath the crust. The caldera's mouth is 50 miles long and 30 miles wide according to *Reuters*.

The *U.S. Geological Survey Records* informs that the *Yellowstone Supervolcano* has erupted thrice in the past. The first eruption was 2-million years ago, the second time it erupted was 1.3 million years ago, and its third eruption was 630,000 years ago. *IDAHO, COLORADO, MONTANA, UTAH, and WYOMING* should stay at the ready because the magna reservoir has the potential to spew rock, dust, and volcanic ash for 240 cubic miles.

(July 15, 2014, *YAHOO NEWS*, "*Yellowstone Supervolcano 'turned the asphalt into soup' shutting down Natl. park's roads*"; www.it.com/usa/172672-supervolcano-yellowstone-closed-roads/ ; <http://on.rt.com/71xoec>)

The Movers and the Shakers

The *Interior Appropriations Subcommittee* oversees funding for the *U.S. Geological Survey's* earthquake programs and is chaired by *Representative Ken Calvert* from the *Inland Empire's* earthquake country. The *Geological Survey* and its university partners are testing a prototype system in the *Los Angeles* and *San Francisco Bay* areas.

.....

July 20, 2014

Page 2

The UNIVERSITY OF CALIFORNIA, BERKELEY's *Seismological Laboratory* is directed by *Richard Allen* who believes funding would lead to a public early-warning system deemed essential before the "*Big One*" strikes the WEST COAST.

Representative Adam Schiff is seeking \$5 million for the *U.S. Geological Survey* and other agencies to receive funding for the purchase and installation of additional sensors and hiring of staff, beginning September 1, 2014.

Senator Dianne Feinstein pleads for the *Federal Emergency Management Agency* to give priority to early-warning systems when it considers grant-funding requests. The total cost to build a WEST COAST earthquake early-warning system is about \$38 million, and it will cost about \$16 million to operate and maintain the system annually.

It will take five years to set up the full system of sensors along the entire WEST COAST so that waves radiating from the epicenter of a quake would be detected so that people could be notified by phones, radio, and TV to help protect infrastructure and save lives.

(July 16, 2014, MAIL TRIBUNE, "*Quake warning system may receive \$5 million boost from Congress*" by Richard Simon, LOS ANGELES TIMES)

The Pen is Mightier than the Sword

Back in the day when guns did not exist, there was the quill. Now there is research to prove that eliminating firearms from the community can decrease the incidence of violence. If you want details, it is documented that from 1995 to 1996 suicides decreased by 33% and homicides decreased by 18% in *Pittsburgh*, PENNSYLVANIA, following the initiation of a gun buy-back program.

Did you know that this year over the 4th of July holiday, in 2014, in *Chicago*, ILLINOIS, there were 83 gun shootings with 14 dead and the *Obama Administration* made no mention. *What's going on.*

(January/February 1999, MOTHERING, "*Gaining Ground on Gun Violence*"; the AMERICAN ACADEMY OF PEDIATRICS, 141 Northwest Point Boulevard, Elk Grove Village, IL 60007-098; the INSTITUTE FOR PEACE AND JUSTICE, 4144 Lindell Boulevard, Suite 408, St. Louis, MO 63108; FAMILIES AGAINST VIOLENCE ADVOCACY NETWORK)

Hillary Clinton Take Notice

When the *American People* raise collective voices, votes are determined. According to *Steven Kull*, Director of a study conducted by the *Program for Public Consultation* (PPC) the problem is that elected officials listen to special interests rather than to the priorities and values of the public. The solution is to give the public a louder voice in policy making in order for legislators to find more common ground. A bright spot on the horizon is *Senator Bernie Sanders*, a staunch supporter of GMO labeling laws.

Political Spin

Voters are in control is why BIO campaign cash is used to scare voters with claims that are pure political spin. For example *Hillary Clinton* was invited (paid?) to speak at the BIO INTERNATIONAL CONVENTION in support for GMOs. Since she may become the 2016 Democratic Presidential Candidate, you may want to add your name to the online petition to dissuade her from being a puppet for the BIO cash cows. For more information contact *Cheryl Levie* at chair639@sonic.net.

The Worst Bet

I don't know if you understand that GLYPHOSATE in *Round-Up Ready* was first patented in 1964 as a *broad spectrum descaling agent chelator*. Next it was patented as an *herbicide*. Then it was patented as an *antibiotic*. Let's call GLYPHOSATE by its proper name. It is a *biocide*.

GLYPHOSATE IS A BIOCIDES because it makes minerals in the soil bio-unavailable to plants. Depriving plants of nutrients is violence towards flora and the fauna that feeds upon flora. Bio-unavailability of minerals in food is biocide weaponry against Man because your body needs vitamins and *minerals* to live. Did you ever notice that the opposite of "live" is "evil". Blocking nutrients out of food is wrong-hearted. It misses the mark because it is an unloving thing for MONSANTO to have done. Corporate repentance doesn't occur until the public demands its own self-defense from buyer beware tactics.

How aghast that a *broad spectrum descaling agent chelator* was marketed as *herbicide* and *antibiotic*! Try to resist seeing the movies FAST FOOD NATION and SUPERSIZE ME in light of mineral bio-unavailability. You probably already know U.S. citizens are malnourished and overweight. Just suppose the American People overeat because you crave vitamins and *minerals*.

Produced by Genetic Engineering

You are able, aren't you, to see that making the *American People* anemic, mineral deficient, and malnourished, then selling chemical substitutions to replace the lost vitamins and minerals that the *broad spectrum descaling agent chelator* blocked from food, and finishing off the Population by drugging 'em dead on *broad spectrum descaling agent chelator* prescriptions, *kills 'em quicker and surer*.

The system is cradle to grave. What you purchase from the food shelves in grocery aisles eventually conveys you to a coffin because any symptom leads into the system, which has revolving doors. Once you get on the BIO conveyor belt it's a ride to the other side.

Understand the Corollary

Since *Agenda 21* was implemented, six mega *chemical* companies have controlled most of the world's patented *food* seeds. The BAYER, BASF, DOW, DUPONT, MONSANTO, and SYNGENTA AG chemical giants heavily fund the *American Grocers Association*. The *American Grocers Association* received oligarchical funding to sue the state of VERMONT for deciding to label GMOs.

The BIOTECHNOLOGY INDUSTRY ORGANIZATION (BIO) is the lobbyist group. BIO lobbies to crush bills that would allow the liberty of states to pass GMO labeling requirements.

Unlabeled GMOs are a HUMAN RIGHTS violation because *Genetically Modified Organisms* were gene engineered into seeds without first ascertaining whether major markets of the world wanted it. The human *Population Experiment* was carried out upon EARTH without the informed consent of the people fed GMOs as part of the *Standard American Diet* since 1996.

The corollary is that the *American People* are genuinely sick and woefully spend trillions for disease care. It profits *Big Pharma's* chemical drug culture for hospitals to be full of patients for their patents. It's not all about the money, isn't it. The problem is overpopulation and using food as weaponry on grocery store aisles. But Population Control through food is without your informed consent. Patenting food is the unspoken warrant.

The New BIO Strategy

BIO is shifting its disguise to AG TECH to employ *Internet apps* asserting that the six mega chemical companies "*have*" the planet's agricultural ownership. That's because food has been patented and they stole seed ownership from Mother Nature's commons for Man.

AG TECH wants the world to view all micro-farming as if it is mere hobby, and not real agricultural pursuit. By lumping family farms that are under 500-acres together with home gardening, AG TECH coined "*Social Gardeners*" as their *Internet app* market. It means BIO may try to sell GMO seed packets under the new phraseology of "*Resistant seeds*" to be organically grown. *Aha! They think they've gotcha.*

Due to federal patent laws the world's largest chemical companies file patent infringement lawsuits against their victims. Once any seed on a non-GMO private property becomes contaminated by GMO pollen, the AG TECH chemical giants file lawsuits to exploit the innocent. The food thieves will say whatever logical errors it takes to sell patented GMO seed contracts and companion herbicides and then claim patent infringement by those who object to being monopolized by a GMO global plantation. Can you see it is childish immaturity for the AMERICAN Judicial system to be so blind to seed Justice.

July 20, 2014

Page 5

One way to end the injustice is by distributing pure genetic heirloom seeds and nonviolent organic gardening kits all over the country, and by establishing eco-peace initiatives to help families prevent and reduce violence toward fauna and flora in your communities.

Read and Heed

There seems to be a religious emphasis on being lukewarm, “*No worries, Jesus is returning soon and will make everything all better*” but if I could conjecture to the sleepyheads, an attitude of apathy means it is time to light your candlestick. If all you dream of is rapture from reality, it could get worse, before it gets better. Confused and confounded is something other than heavenly.

Listen to this, *Heaven* pukes over an apathetic, room-temperature attitude that is neither frozen nor fervent toward the *Restoration of All things*. The restitution has to do with the chlorophyll kingdom, not your selfish personal salvation. So Christians listen up. The measurement of Man has to do with the type of love that is necessary to *heal* the Planet. We’re all in Global Meltdown together. It’s time to live in accord with the environmental defense of the EARTH *now*, rather than trying to control Nature.

Unschool from BIO discrimination against purity of thought and love in your heart because the Universe teaches the child reluctance to force Nature. It upsets the entire balance of the ecosphere to be cruel to Nature. It is abusive to the Planet to plant GMO seeds that resist the chlorophyll kingdom’s “*Weeds*”, such as milkweed and other native plants that the bugs, birds, butterflies, and wild creatures depend upon.

The Universe has Natural intelligence. Healthy *Ponderosa Pines* are able to defend themselves against *Bark Beetle* larvae by secreting sap to gum them up or push them out so they can’t lay eggs. *Bark Beetles* only take residence in trees weakened by drought and overcrowding. Taking out dead and dying trees keeps the forest healthy. But clear cutting overheats the soil and disrupts the microclimate. After they clear cut, timber companies put in tree plantations of all the same size and same species, which makes the woodlands more prone to disease and catastrophic fires. Nature does NOT grow GMO trees. Nature does NOT do helicopter or unmanned drone spraying of the fields and forests with biocides.

It is degenerate to create a global GMO plantation instead of an Edenic Delight of biodiversity. The biosphere is nothing to monkey with. As in the *Days of Noah*, Man’s violation against the Planet may upset EARTH’s equilibrium. We are of the EARTH’s elements. Separation is the delusion.

KSKQ and Letters to the Editor

As this election season approaches, it is up to you to seize the day by writing *Letters to the Editor* of the newspapers read by legislators. Otherwise the *Wonderful World Tomorrow* could be cancelled due to lack of public interest.

It is up to you to call KSKQ with your public comments. KSKQ *Talk Radio* broadcasts in the ROGUE VALLEY at 89.5 FM and streams to the world at www.kskq.org. Open public comment time is between 7 a.m. to 9 a.m. The call-in number is 541.482.3999. KSKQ reaches Ashland, Jacksonville, Medford, Phoenix, Rogue River, and Talent, OREGON.

The Gift of Curiosity

The *Eco-Community Dialogues* newsletters are a FREE community service made available to you, by request, at the *A Street Print & Copy* shop across from ACE hardware, in Ashland, OREGON. The print shop only charges for paper and ink, or will download the entire PDF file of current and back issues onto people's flash drives to read off their computers and save paper and ink. It's up to you to provide your own flash drive. Aren't you curious enough to read the past issues. *Curiosity needs to be satisfied.*

Inscription inside the Oregon State Capital Building

"In the souls of its citizens will be found the likeness of the state which, if they be unjust and tyrannical, then will it reflect their vices, but if they be lovers of righteousness, confident in their liberties, so will it be clean in justice, bold in freedom."

--Plato's REPUBLIC
